It's an honour to be invited to photograph a couples wedding day. My aim is to capture the energy, fun, love, beauty and emotion of one of the best days of your life.

Every wedding is a unique event and our aim is to capture the story of the day with a range of stunning photographs, from those all important candid moments that grasp the mood and atmosphere of the day to those breath taking night shots that add something different.

We believe that emotions are conveyed at their best when people are relaxed and living in the moment. These are the spaces you find intimate glances, contented smiles and tears of joy, the moments that capture the essence of two people in love. This is why we choose to blend into the background, taking in the small details you've carefully arranged months, even years in advance, as well as those candid laughs and embraces of your dearest friends and family.

Every wedding is different and our aim is to capture the whole story from start to finish. We're more than happy to tailor your wedding images to exactly what you want but all our package includes:-

- An initial consultation at your home or the venue
- Pre-wedding shoot at a location of your choice
- Full coverage from morning preparations to evening dances
- Formal group shots
- Online gallery
- Signing frame
- Retouching and editing of each photo individually

If you have any questions or need more information about our photography service please don't hesitate to get in touch.
